Welcome

It is our pleasure to contribute to the success of your stay in Peru and Cusco by providing you with a fantastic accommodation option: our homey bed & breakfast.

Your independent room offers great privacy. Two comfortable bathrooms with hot water at morning and evening hours and on request any time, a *common room* with direct internet cable connection and a well-equipped kitchenette, give you independence and comfort. There is WiFi of good strength all around and in the house. According to your preferences, you can prepare your own breakfast, or you may opt, frequently or just now and then, for having breakfast prepared by us at an additional cost of 18 soles. We serve it in the sunny dining room on the ground floor. It is always our great pleasure to do so.

After many years of living in Cusco, we know the city and the region quite well. We are happy to provide you with any information you may need while you are working or studying in Cusco and/or exploring this breathtaking central area of the old Inka-empire.

Our house is in a safe quarter at a nice park, a 25-minutes' walk away from the city centre. A taxi will bring you there in 8 minutes for one dollar (6 to 7 soles) and a city bus in 20 minutes, for one sol. Our family home offers all you need as a tourist, student, or professional. Please let us know all your questions and we will answer them in due time.

We have five guestrooms available. You can reserve them on the Airbnb website, clicking on the links found under each listing picture below. There you will find all price information and additional details.

Three private rooms are located at the first floor:

Comfort and Hospitality

Comfortable double room

Link to reservation (Ctrl+click):
<https://www.airbnb.com.pe/ro11677553oms/?>

Next to these guest rooms, there is a *common room* with a well-equipped kitchenette for exclusive use by individual or group guests. According to your preference, you can cook meals and prepare breakfast here.

The *common room* is adjacent to your private room and used only by guests

The dining room on the ground floor

Two other private guestrooms are located at the ground floor, in a chalet at the backside of the interior courtyard. These guests take breakfast in the same dining room and when they prefer may use the common room with kitchenette on the first floor.

You will enjoy the tranquility of our patio. From July on, the Khantu tree (*Cantua buxifolia*) starts blooming; at any moment of the day, but especially in the morning hours, hummingbirds honor us with their visit.

When still on a branch, it is easier to take a photograph of the hummingbird

Sometimes the hummingbird converts itself into its own shadow

Rent for your group an entire apartment

It is possible to reserve the three private rooms together with the common room and the adjacent bathroom as one independent apartment. The total capacity is then 5 persons. This is easier to arrange when you reserve at least a month in advance. The figure below shows you our house, seen from the park it is located at and a link for reservation or an inquiry. You can reserve the entire apartment clicking the link below the picture.

Comfortable apartment in Cusco
